This national part of the curriculum for the Marketing Management programme has been released in accordance with §18, section 1 in the Ministerial Order for technical and commercial Academy Profession Programmes and Professional Bachelor Programmes. This curriculum is supplemented with an institutional part of the curriculum, which is provided by the individual institution that offers the programme.

It has been prepared by the Educational Committee for the Marketing Management programme and approved by the Board of Directors (or the Rectors) after consultation with Business Academy Aarhus' educational network and the chairmanship of IT Technology external examiners.

1. The programme's goals for learning outcomes

Knowledge

The graduate has knowledge about:

- and can understand centrally applied theory and method, and can also understand the profession's practice and use of theory and method within marketing and sales,
- complex and practice-orientated issues within the field of marketing in relation to the company's marketing, organisational and economic base.

Skills

The graduate will have the skills to:

- apply the profession's key methods and tools and be able to apply the skills related to employment within the marketing field,
- assess the practice-orientated problems as well as outline and choose solutions within the marketing field,
- disseminate practice-orientated issues and possible solutions to partners and users within the marketing field.

Competencies

The graduate will be able to:

- manage development-orientated situations within the field of marketing and sales, taking professional and socio-economic conditions into account,
- participate in academic and interdisciplinary collaboration in relation to marketing and internationalisation in a professional manner
- in a structured context, acquire new knowledge, skills and competencies in relation to marketing and sales

2. The programme includes 6 national subject elements

2.1. Business understanding and products

Content

The subject element is concerned with methods of analysing the company's internal conditions, including the annual accounts and accounting analyses. Similarly, the subject element is concerned with identifying the company's development potential, as well as the organisational and company form which the company can choose.

Learning objectives for business understanding

Knowledge

The student will gain knowledge about:

- different types of analyses to assess the company's internal strategic situation,
- and an understanding of practices and the use of different business models,
- and an understanding of the practice, centrally applied theory and methodology in relation to how a company generates revenue.

Skills

The student will get the skills to:

- use the key methods and tools to identify development potential based on the company's internal conditions,
- evaluate practice-orientated issues and develop and select solutions in relation to the company's business with the aim of creating added value for customers,
- assess and analyse the company's organisation, structure, culture and accounting for the optimisation of its business processes,
- communicate practice-orientated issues and solutions in relation to the internal analysis of the company.

Competencies

The student will learn to:

- manage development-orientated situations related to the development and optimisation of the company's business model,
- participate in academic and interdisciplinary collaboration in relation to the company's internal conditions and business model in a professional way
- in a structured context, acquire new knowledge, skills and competencies in relation to the company's internal conditions.

ECTS weight

The subject element business understanding is weighted 10 ECTS credits.

2.2. Market understanding

Content

The subject element is concerned with methods for analysing the company's external conditions and market potential. The focus is on customers and competitors, and this subject element also deals with the professional and social aspects of the company, the company's legal relationship and analyses of the company's supply chain.

Learning Objectives for market understanding

Knowledge

The student will gain knowledge about:

- different types of analyses to assess the company's external strategic situation,
- and an understanding of theory, methodology and practice in relation to different types of trend analyses and their relevance to the company.

Skills

The student will get the skills to:

- use the key methods and tools of the subject area in relation to an external analysis of the company's situation,
- evaluate practice-orientated issues as well as develop and select solutions in relation to the preparation of customer analyses and competitor analyses as well as evaluate the company's market potential,
- disseminate practice-orientated issues and possible solutions of the external situation to partners and users.

Competencies

The student will learn to:

- manage development-orientated situations related to the company's external strategic situation
- participate in academic and interdisciplinary collaboration with a professional approach in relation to the analysis of the company's external strategic situation,
- in a structured context, acquire new knowledge, skills and competencies in relation to the company's strategic situation in a given market.

ECTS weight

The subject element market understanding is weighted 10 ECTS credits.

2.3. Market analysis

Content

The subject element is concerned with methods of producing market analyses. There is a focus on data collection methods and the processing of data as well as legal issues related to this. Evaluation of data and statistical concepts and their application, as well as methods and tools for project management and control.

Learning Objectives for market analysis

Knowledge

The student will gain knowledge about:

- methods of collecting and using data and managing this,
- and an understanding of the practice, centrally applied theory and methodology in relation to different market analysis methods.

Skills

The student will get the skills to:

- use the subject's key methods and tools in relation to evaluating the validity and the reliability of the market analysis,
- assess the practice-orientated problems as well as outline and choose solutions based on the gathered primary and secondary data,
- disseminate practice-orientated issues and possible solutions within the field of market analysis to partners and users.

Competencies

The student will learn to:

- manage development-orientated situations by using relevant market analyses,
- participate in academic and interdisciplinary collaboration with a professional approach in connection with the preparation and presentation of recommendations based on a market analysis,
- in a structured context, acquire new knowledge, skills and competencies in relation to marketing analysis

ECTS weight

The subject element marketing analysis is weighted 10 ECTS credits.

2.4. The marketing plan – strategy and tactics

Content

The subject element includes the development of marketing strategies, including audience selection, positioning and preparation of communication and sales strategy, taking the budget and the company's earning goals into account. The subject element also includes the development of a strategic and tactical marketing plan for the B2C and the B2B market. It also includes pricing methods based on supply and demand conditions, as well as the company's cost ratio. In addition, the subject element includes scenarios and legal aspects within marketing and sales.

Learning objectives for the marketing plan – strategy and tactics

Knowledge

The student will gain knowledge about:

- the marketing plan's structure including relevant marketing strategies and the tactical structure of the marketing plan
- and can understand the practical and centrally applied theory and method, and can also understand the marketing plan's content and structure.

Skills

The student will get the skills to:

- apply the profession's key methods and tools and be able to apply the skills related to outlining a marketing plan and evaluating this,
- assess the practice-orientated issues as well as outline and choose strategic and tactical solutions for the marketing plan,
- communicate practice-orientated issues and possible solutions to business partners and users in relation to a specific marketing plan.

Competencies

The student will learn to:

- manage development-orientated situations related to marketing planning for companies operating in B2B and B2C markets,
- participate in academic and interdisciplinary collaboration with a professional approach in relation to the marketing plan,
- in a structured context, acquire new knowledge, skills and competencies in relation to marketing planning on a strategic and tactical level.

ECTS weight

The subject element marketing plan – strategy and tactics is weighted 20 ECTS credits.

2.5. The marketing plan - implementation

Content

The subject element includes the implementation of the marketing plan in practice and the action plan for this, including securing the company's earnings and following-up on objectives, as well as budget control. The subject element focuses on the preparation of marketing materials, including the marketing mix's use in practice. The subject element also contains the company's sales planning and the different phases of the sale, as well as risk assessment of the plan and evaluation of its effectiveness.

Objectives for the marketing plan - implementation

Knowledge

The student will gain knowledge about:

- the follow-up and evaluation of the marketing plan, including the practical application of the marketing mix,
- and understand the practice, centrally applied theory and methodology in relation to the preparation of the actual marketing material and related budgets.

Skills

The student will get the skills to:

- use key methodologies and tools to develop a practice-orientated and detailed operational marketing plan,
- evaluate the practice-orientated issues as well as outline and choose solutions in relation to the operational marketing plan.
- communicate practice-orientated issues and possible solutions to business partners and users in relation to the operational marketing plan.

Competencies

The student will learn to:

- undertake development-orientated situations related to the implementation of the operational marketing plan,
- participate in academic and interdisciplinary cooperation with a professional approach in relation to the company's work with internal and external partners in the preparation of an operational marketing plan,
- in a structured context, acquire new knowledge, skills and competencies in relation to ensuring the fulfilment of the company's operational marketing plan.

ECTS weight

The subject element marketing plan – strategy and tactics is weighted 10 ECTS credits.

2.6. Internationalisation

Content

This subject element includes the company's internationalisation and internationalisation strategies, including market selection, establishment types as well as the modification of the marketing mix effort. The subject element also includes culture and the significance of this for the marketing mix effort. The subject element also includes trade policy and macroeconomic factors that affect the company's internationalisation. In addition, the subject element includes financing and investment theory.

Learning objectives for internationalisation

Knowledge

The student will gain knowledge about:

- the profession's practice and centrally applied theory and methods within internationalisation,
- and an understanding of the practice, centrally applied theory and methodology in relation to the company's internationalisation.

Skills

The student will get the skills to:

- use key theories and concepts that are important to the company's internationalisation,
- evaluate the practice-orientated issues as well as outline and choose marketing orientated solutions in relation to the company's internationalisation,
- communicate practice-orientated issues and possible solutions to business partners and users in relation to the company's internationalisation.

Competencies

The student will learn to:

- manage development-orientated situations in connection with decisions relating to the company's internationalisation,
- participate in academic and interdisciplinary collaboration in a professional manner in relation to the preparation of the company's internationalisation
- in a structured context, acquire new knowledge, skills and competencies in relation to the company's internationalisation.

ECTS weight

The subject element internationalisation is weighted 10 ECTS credits.

2.7. The number of exams in the national subject elements

There are 3 exams in the national subject elements, which in total represent 70 ECTS. Of this, 60 ECTS are part of the exam/s which make up the first-year exam.

There is one additional exam which is the final exam project. For the number of exams in the internship, please refer to section 3.

For a comprehensive overview of all the programme's exams, please refer to the institutional part of the curriculum, as the national subject elements described in this curriculum can be examined together with the subject elements specified in the institutional part of the curriculum.

3. Internship

Learning objectives for programme's internship

The internship must ensure practice-orientated business competencies and the development of professional and personal competencies. The student must be able to solve practical issues in a methodological way by including relevant theories and models and thus contribute to the realisation of value-creating activities within the company.

Knowledge

The student will gain knowledge about:

- the internship company's practice as well as the centrally applied theory and methodology of the internship function in the industry concerned,
- and understand the practical and applied theory and method for the internship's profession as well as be able to understand the internship's practice and use of theory and method.

Skills

The student will get the skills to:

- use key theories and concepts linked to employment in the internship's profession,
- evaluate the practice-orientated issues related to the company and outline solution options in relation to the function of the internship,
- communicate the practice-orientated issues and give reasons for possible solutions to customers, business partners and users in relation to the internship function.

Competencies

The student will learn to:

- handle development-orientated situations within the internship context,
- participate in academic and interdisciplinary collaboration in the internship company in a professional manner in relation to the internship,
- in a structured context, acquire new knowledge, skills and competencies in relation to their profession and their internship

ECTS weight

The internship is worth 15 ECTS credits.

Number of exams

The internship is completed with 1 exam.

4. Requirements for the final exam project.

The learning objectives for the final exam project are identical to the programme's learning objectives listed above under point 1.

The final exam project, which together with the internship exam and the other exams on the programme, must document that the learning objectives for the programme have been achieved.

The final exam project must demonstrate the student's understanding of practices and centrally applied theory and methods in relation to a real-life problem, which is based upon a specific task within the programme's area. The problem statement that must be central to the programme and profession, is formulated by the student, possibly in collaboration with a private or public company. The educational institution approves the problem statement.

For specific form requirements for the final exam project please refer to the institutional part of the curriculum.

Exams for the final exam project

The final exam project completes the programme in the last semester once all the preceding exams have been passed.

ECTS weight

The final exam project is weighted 15 ECTS credits.

Examination form

The exam is an oral exam based on the final exam project with an external co-examiner, a combined mark is given based on the 7-point scale for the written project and the oral presentation.

5. Rules on credit

Passed programme elements are equivalent to similar programme elements taken at other educational institutions offering this programme.

The students are obliged to inform us of any completed educational elements from another Danish or foreign higher education programme or any jobs which are likely to provide credit.

The institution approves, in each instance, credit on the basis of completed programme elements and any jobs which meet the objectives of the subjects, the educational part and the internship part.

The decision is taken according to an academic assessment.

For prior credit approval of studies in Denmark or abroad, students are required to document each approved and completed programme element on the completion of these studies.

In connection with the application for prior credit approval, the students must give permission to the institution to obtain any required information after the completion of their studies.

On approval according to the above, the programme element is deemed to be passed if it was passed according to the rules of the programme in question.

6. Commencement and transitional schemes

Commencement

This part of the national curriculum is valid from 20.08.2019 and is valid for students who are enrolled after 20.08.2019

Transitional scheme

Students who have been admitted before 20.08.2019 must follow the curriculum from June 2017, after which they must follow this curriculum from 31.01.2021. However, exams which have been started before 31.01.2021, must be completed according to the curriculum that they started with.
